though the undercurrent is strong and un-

mistakably that of a rising tide.

The best evidence of the broadening ten-

activity, but in the main fluctuated within narrow limits. Those that received the most attention were Rochester and Pittsburgh, Colorado Coal, East Tennessee common and second preferred, Lacledo Gas, Louisville, New Albany and Chicago, Tennessee Coal and Iron, and Wheeling and Lake Erie common. Interest in stocks that rule at the prices of those just named is unquestionably increasing. It is shown not only by the larger dealings in them, but by the inquires for informacion regarding the condition and prospects of the properties that they represent. The closing was strong.

Prospects of a Long and Bitter Warfare

The Gold and Stock Company's ticker service in Wall street yesterday was somewhat delayed. The Consolidated Stock and Petroleum Exchange was subject to trivial anleum Exchange was subject to trivial annoyances because of the serious differences between the Gold and Stock and the New York Quotation Company, which wishes to obtain a monopoly in distributing the quotations.

The New York Stock Exchange, through Secretary Ely, renewed its offer to furnish the Gold and Stock and Wall street patrons with the quotations for \$100 a day pending the discussion of a contract as to what should be done with the Gold and Stock's cutside patrons among the hotels, saloons, and sporting resorts. Dr. Norvin Green, for the Gold and Stock, rejected the proposition.

Some persons think the beginning of the long struggle for supremacy is at hand. The Gold and Stock has a profitable business, now running in the neighborhood of 800 tickers. It is a rich and powerful company. The New York Stock Quotation Company is mostly backed by the Stock Exchange, which hates the Consolidated Stock and Petroleum Exchange. The Stock Exchange authorities have frequently declared their intention to drive the Consolidated out of business. With the Gold and Stock supplying that Exchange with the offlicial quotations that was a difficult matter. Now the situation is more serious for the Consolidated. But the Gold and Stock is full of cial quotations that was a difficult matter. Now the situation is more serious for the Consolidated. But the Gold and Stock is full of resources, and appreciating fully that its outside business among the hotels is threatened and fully determined to stand by the Consolidated, a lively fight is imminent.

More than twelve million copies of the books printed from the plates now con-trolled by this Company were sold during 1889, the year preceding the present organization.

The UNITED STATES BOOK COM-PANY virtually controls within the United States the publication of most of the popu-lar standard works, a business in which the ordinary profits are very large. This profit will be greatly increased by the freedom from competition and the economics of man-agement which are secured by the concen-

business above referred to, this Company has contracted with over seventy of the leading English authors, whereby it se-quires the exclusive right of publication and sale of the works of these foreign authors in this country during the term of their copyright, which is for twenty-eight years with renewal in certain cases for fourier

years. Under the new copyright law of the United States all foreign works must be printed here to obtain copyright. and electrotype plates, as above noted, which have been appraised as of a market value of \$3,000,000

by competent experts, who state that they give this valuation "based upon the condition and character of the plates and our knowledge of the magnitude of the pusiness carried on by the UNITED STATES BOOK The Company's charter gives it authority to issue

bonds and to execute mortgages to secure such bonds. Under this power the Company has issued \$1,000,000 twenty-year 6 per cent, bonds. The plates whose appraised value, as shown above, is three times the total bonded debt, are included in the property covered by the mortgage. A copy of the mortgage, with a list of the plates, may be inspected at the office of Mesara. JOHN, H. DAVIS & CO. As further security to the bondholders, the

mortgage provides for an annual slaking fund payment, beginning January, 1895, to be applied to the retirement of the bonds through their purchase in the market at not exceeding \$1,150 per bond. The Company's principal establishment embraces Nos. 142, 144, 146, 148, and 150 Worth st., New York, city, with auxiliary establishments in Vandowater st.

The interest charge upon the entire bonds debt of the Company is \$60,000 per year.

The net profits of the Company for the five months of 1800 after organization were \$151,056.44, or two and one-half times the interest for the entire year. For the period of fifteen months ending Oct. 31, 1891; the net profits were \$299,633,91, as shown by income account and balance sheet prepared by Messrs. YALDEN, BROOKS & BON. by Messrs, YALDEN, BROOKS & DON-NELLY, Public Accountants, copy of which may be seen at the office of JOHN H. DAVIS & CO. This shows a surplus of 8224,633 over and above full interest charges for that period upon the \$1,000, 000 bonds, and a surplus of nearly \$25,000 after payment of the 8 per cent, dividend upon the preferred stock,
